UNISIGN DIGITAL SIGNAGE & DISPLAY SOLUTIONS

Unisign is a technology and service provider company that develops innovative technologies and high value-added products for its customers and solutions that will meet their needs. Operating since 2005 with its knowledge and experience in digital signage, Unisign provides high-quality and effective services to the industry by developing innovative technologies and high value-added products that meet customer needs.

As the leading brand in Turkey in the field of Digital Signage and Display Technologies, with an annual production capacity of over 25,000 units, Unisign continues to pioneer the sector with custom solutions and R&D investments tailored to customer requirements.

Unisign-branded digital displays, developed by Unisign engineers and supported by TÜBİTAK TeknoGirişim, are currently used at more than 20,000 locations in Turkey and in over 30 countries worldwide, serving as the most effective communication channel for numerous organizations

Self Order Kiosks

Provides an innovative solution for businesses seeking to enhance customer experience and streamline operations. With its intuitive interface, customers can easily browse menus, customize orders, and complete transactions at their convenience. Revolutionizes the way businesses interact with their customers, providing a modern and efficient self-service solution.

MERSIN

KSMA215MA KSMA238HA

Retail Revolution

The Mersin Self-Service Kiosk is designed to transform the customer experience. Its sleek, design fits perfectly in various retail environments, from grocery stores to fashion boutiques. The large touchscreen display showcases your products in stunning detail, while the integrated barcode scanner streamlines the checkout process for scannable items.

Efficiency Meets Elegance

Efficiency Meets Elegance Despite its compact size, the Mersin model packs a powerful punch. It efficiently handles a wide range of transactions, from simple purchases to complex orders with multiple items. The intuitive interface guides customers through the process, reducing the learning curve and minimizing the need for staff assistance. This blend of efficiency and ease-of-use significantly reduces queue times and enhances customer satisfaction.

Adaptable Design

The Mersin Self-Service Kiosk's modular design allows for easy customization to meet your specific business needs.

Whether you need to add a loyalty card reader, upgrade the payment system, or incorporate new features, this kiosk grows with your business. Its software is easily updateable, ensuring you're always equipped with the latest features and security measures.

Secure and Swift Transactions

Equipped with state-of-the-art payment processing technology, the Mersin kiosk ensures secure and rapid transactions. It accepts various payment methods, including contactless cards and mobile payments, catering to the preferences of modern consumers. The built-in receipt printer provides immediate transaction confirmation.
